

ECOMMERCE

Streamline Ordering, Inventory, Production and Fulfillment

The Most Advanced Ecommerce for Packaging

Fast-track your business with Advantzware Ecommerce. Your business needs modern, secure, easy to use channels of communication for your clients. Your Ecommerce Sites provide communication channels to accelerate high value business with its powerful suite of tools. It's like having digital customer service that never sleeps.

STREAMLINED ORDERING PROCESS

Our intuitive user experience allows you to automate and streamline order procurement and eliminate costly errors for a wide range of products.

MANAGE & CONTROL INVENTORY

Empower your clients by allowing them to quickly reorder stock items, view inventory levels, check order status, request quotes and customize versioned products all from one online portal.

ECOMMERCE

Streamline Ordering, Inventory, Production and Fulfillment

UNLIMITED CUSTOMIZABLE SITES

Private ecommerce sites securely share information, customized with their logo and brand colors to present a more polished and a professional look to your clients. Ecommerce sites are eye catching and easy to maneuver through, treating your customers to a streamlined process that is user-friendly.

SIMPLE ORDERING AND REORDERING

Customers can access their standard stock items as well as order history online, whether they have ordered via the ecommerce site, or they have placed an order directly with your team.

UP-TO-DATE INVENTORY LEVELS

Physically stored finished goods can be ordered from the portal with a display of real-time inventory levels including quantities of in-stock, in-process to release, as well as on-order.

REQUEST FOR QUOTE FORMS

Create Request For Quote (RFQ) forms that integrate into Advantzware. RFQs can be customized for folding cartons, corrugated or other packaging supplies or items.

CLIENT FAVORITE LISTS

Clients can choose which items they order on a regular basis and set them as favorites to order and reorder more efficiently.

INSTANT ONLINE PROOFS

From standard box designs to custom apparel packaging, help your clients easily create custom packaging online with 3D previews of the design. Build templates from scratch or upload Adobe InDesign files and set behavior for each design element to configure personalization logic.

ORDER HISTORY

The Order History page is a powerful tool that allows clients to see previous orders and easily place reorders from the inquiry page.

USER ADMINISTRATION TOOLS

Provide access to a client administrator to edit access for their employees without plant interaction. Access is driven through the contact, portal, or product. Custom security roles can be created to grant the customers access to pages, control which actions are possible.

STREAMLINE ORDER ENTRY

All orders place through the Advantzware Ecommerce sites transmit directly into the Advantzware ERP with specifications, client information and any required to complete the order process.
